## ***PROPOSED "WESTSIDE TRAIL" REJECTED BY BOARD***

On July 27<sup>th</sup> the Board of Directors approved a Resolution stating that significant additional planning, costing and analysis is required to establish the future viability of the "West Side Trail" before any such trail is considered. The Resolution further states that immediate development of a "West Side Trail" is not in the best interest of a majority of the Members of the Roxborough Park Foundation and that the Board of Directors will not consider, at this time, construction and development of the "West Side Trail". All three of the Board members in attendance at the meeting voted in favor of the Resolution therefore resolving the controversial issue of the proposed trail.

Anyone interested in reviewing the Resolution may obtain a copy at the Community Center office.

## ***TREE PLANTING PROGRAM***

As part of the overall traffic program for Roxborough Park, the Board included a tree and shrub planting program, primarily for residents of the "Stadium Bowl" area (Roxborough Drive from Sundown to Choke Cherry) to help with noise abatement.

As we considered the best time and manner to implement such a program, we learned of the impending closure of Arapahoe Acres, who at present is offering 30% off their inventory in anticipation of a December 31 closure. The Board sees this closure as an opportunity to implement and expand a tree and shrub planting program, and currently is working out the details. Our anticipation is that we will be able to purchase a large lot of trees and shrubs at reduced prices, and offer them to residents at our cost. Depending on the demand, we anticipate that our maintenance crew will be able to do the planting of any plants purchased, and that we can store them balled in the maintenance area until planted. For example, Arapahoe Acres has a large selection of 4-5 foot blue spruce that would cost approximately \$60 after the discount. We are compiling a list of appropriate plantings (trees and shrubs) that are deer resistant, drought tolerant and native, and will be getting prices on the complete list soon.

We will open this program to all residents who wish to add plantings to their property. Watch for more information in the next few weeks, which will include price details, order information, etc.

Please e-mail the general manager at [tpeterson@roxborough-park.com](mailto:tpeterson@roxborough-park.com) if you might be interested in participation in such a program. More information will be distributed as it becomes available. An indication of interest at this stage will not obligate you to participate. We are just trying to learn how much interest there might be.

## ***SPEED MONITORING***

### Vehicle Speed Data Published

The implementation of the 2010 Traffic Plan is well underway. As directed, the speed monitors have been collecting vehicle speeds in the East area of the Park. The monitors have been collecting their data in "dark mode" (not flashing) in order to obtain a baseline of driver behavior without any calming reminders. New monitor bases were installed through the "Stadium" area in order to collect this pin-point information. At the time of the data collection, the speed humps had been removed and the driving lanes narrowed by striping. The following tables are a summary of one week's worth of data collection at each monitoring station.
